

# DBIA

# DESIGN BUILD INSTITUTE OF AMERICA

## INDUSTRY - GOVERNMENT - MILITARY

**PRINCIPAL (21-25 YRS):** A recognized expert with significant experience on design-build projects. Provides and directs resources to drive project completion. Engages with business leadership across organizations and industry.

**SENIOR PROJECT MANAGER (16-20 YRS):**

Demonstrating strong leadership while maintaining the DBIA, you will oversee a larger area of operations or division of professionals. Focused on future planning, work distribution, and business minded decision-making for projects.

**PROJECT MANAGER (7-15 YRS):**

As a project manager with over 6 years experience on design-build projects regardless of education, you are eligible to complete your DBIA credential. You have demonstrated prowess at the technical level and are sought after for leading a scope of projects in a concentrated location.

**ASSISTANT PROJECT MANAGER (4-6 YRS):** Eligible to earn the Associate DBIA credential. Earning this credential will demonstrate your learned knowledge and skill as a professional with some experience on design-build projects.

**CONSTRUCTION MANAGER (0-3 YRS):**

Learn to manage design build projects through on-the-job and formal training while working under a licensed professional. This is where you will develop your fundamental project management skills through daily practice. Establish a record of project experience.
